# **CHUCK'S GLAD PATCH**

(Charles A. Ruble)

1421 South Broadway

ALBERT LEA, MINNESOTA

## GREETINGS!

Glad fans, we enjoyed a very good season in 1946, thanks for the fine orders and hope you will forgive me for being so slow in answering some letters and if I missed some it was because I just tried to do too much. You see this glad business started out as a hobby about ten years ago and has now grown until it is quite a business, but I still have most of my original work, which is truck gardening, with my father.

We have been going under the name of Hillcrest Gardens and am enclosing a list of hardy mums and the famous Wayzata everbearing strawberries.

You can enclose your orders for mums and berry plants with your glads.

All stock state inspected. All bulbs fumigated with Cyanogas—sure death to thrip.

This list has been compiled according to the size and color classification recommended to and voted at the Pittsburgh National Gladiolus Conference of 1944, but with slight modifications as recommended by the North American Gladiolus Council.

### SIZES

Miniature Glads.....	100—Florets under 2½ inches
Small Glads.....	200—2½ inches through 3¼ inches
Medium Glads.....	300—Above 3 ¼ through 4¾ inches
Large Glads.....	400—4½ through 5¾ inches
Giant Glads.....	500—5½ inches and larger

### SUGGESTED COLORS FOR LISTING

Class	Class
00—White	40—Pink Light
01—White with Conspicuous Marking	42—Pink Deep
06—Cream	50—Red Light
10—Yellow Light	52—Red Deep
12—Yellow Deep	54—Red Black
16—Buff	60—Rose Light
20—Orange Light	62—Rose Deep
22—Orange Deep	66—Lavender
24—Red Orange	70—Purple
30—Salmon Light	76—Violet Light
32—Salmon Deep	78—Violet Deep
36—Scarlet	80—Smoky Shades
	90—Any Other Color

Everyone should join a glad society. You will get plenty of helpful hints from the publications. Join your own state society and either or both of the national societies. The North American Gladiolus Council puts out 4 bulletins. Dues are \$1.00 per year. The New England Gladiolus Society dues are \$2.00 per year. They issue 6 magazines and a yearbook.

### TERMS

All prices prepaid on orders of \$3.00 or more. Orders LESS than \$3.00 please enclose 50c for packing and postage.

**EXTRAS ON CASH ORDERS**—Discount on orders of \$5.00 or more you may add 10% your own choice of bulbs when order is paid in full. A down payment of 25% will hold order until wanted; no discount.

### WHOLESALE

For the grower who wants 10 bulbs of a variety, multiply the single price by 8. For those who want larger quantities multiply the 10 price by 8 this is the 100 rate, 25 bulbs at the 100 rate.

I must write and thank you for the lovely bulbs I received from you last Spring, 1946. I won blue ribbons on White Gold, Ethel Cave Cole, Rio Rita, Big Top and King Klick. On King Klick I won blue ribbon, section champion and grand champion at the Twin City Glad Show at Lauerman's, Marinette, Wisconsin and those were on the medium bulbs I got from you. You will see the picture in the gladilous magazine, October issue, 1946.

—Mrs. C. H., Michigan.

## OUR 1947 INTRODUCTION

### CHARLOTTE ANN (Lins)

We have the complete stock of this dark chocolate glad. It grows about 54 inches high opens six 5-inch florets on a stem of 18 to 22 buds. We think quite a bit of this glad and also our only daughter. Now you know where this glad received its name.

We have a fair stock of this glad and never did believe in these very high prices so am going to introduce Charlotte Ann at only \$2.00 any size bulb. No bulblets.

## As They Grew for Us in 1946

**DAISY MAE**—Color is fine. Grows good with wonderful reproduction, good clean bulbs. Everyone should try this one. Beautiful when used in basketwork. Also has a very pleasing and dainty color for arrangements.

**YANKEE LASS**—Very good, a delicate pink that the ladies really go for. Growth and bulbs fine.

**GLEAM**—A beautiful yellow all will want.

**GRATITUDE**—A real addition to the orange class.

**STRUTTER**—Was really extra fine, just as straight and proud as a peacock. A ribbon of color that will make all sit up and take notice.

**DRAGON'S BLOOD**—A very fine dark red. Plenty of room for this and Black Panther both on anyone's list.

**NOWADAYS**—I thought this was extra fine.

**MISS VERMONT**—Was fine. Color and size impressed me most. It also was early.

**BIRCH RED**—Liked this very much.

**SUN SPOT**—Good growth and long spike.

**TROCADERO**—One fine Glad and I'm sure as a cutflower commercial this will make good. Color is pleasing.

**BIG SMOKE**—Good for those who want something different. Is fine for small garden growers.

**CALICO QUEEN**—Just as its name implies is a calico color. White background with red spots. Very pretty and is admired by all who see it.

**DETROIT NEWS**—A great novelty and will create a lot of admiration from all. Flower-head is a little short.

**VERONICA PFEIFFER**—Sure fell for this one when it first bloomed. Very early. Extra large floret with many colors.

**FABULOUS**—A fair blotcher variety.

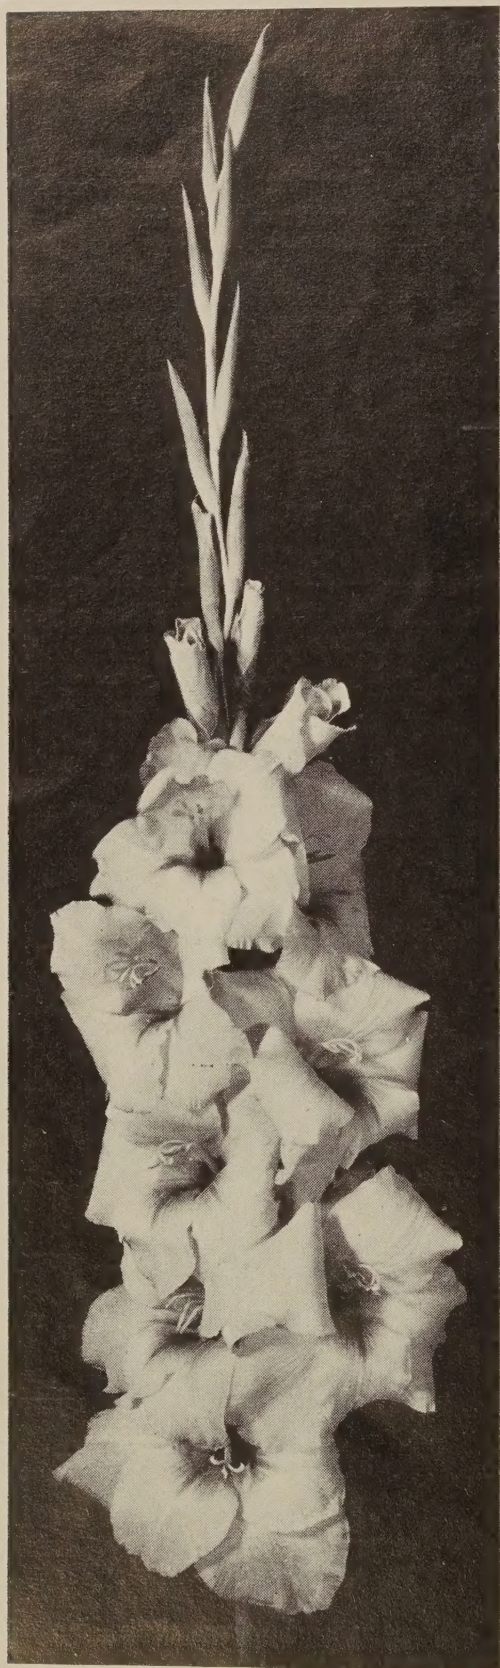

**PINK CHARM**—Not outstanding.

**SPIC AND SPAN**—Didn't grow this one but saw some blooms and they were beautiful.

**ABU HASSEN**—Beautiful dark blue. Wonderful growing habits and good color.

**ORANGE GOLD**—A very good burnt orange with a good sized floret.

DAISY MAE

**441—DAISY MAE (Lins-Ruble)**

The outstanding glad of the 1945 introductions. We have called this an orange pink and it is classified as a 441 but some growers have told us it is more orange than pink. It also looked that way to me. I picked Rio Rita and Daisy Mae at the same time and they really did look orange. Let's hear how they do for you.

Daisy Mae didn't do so well on the show table this past season but then you never see one variety do the winning every year.

Daisy Mae is a tall grower, good healthy growth, a fast reproducer, a color that is pleasing to all. The small bulbs and bulblets will give good spikes.

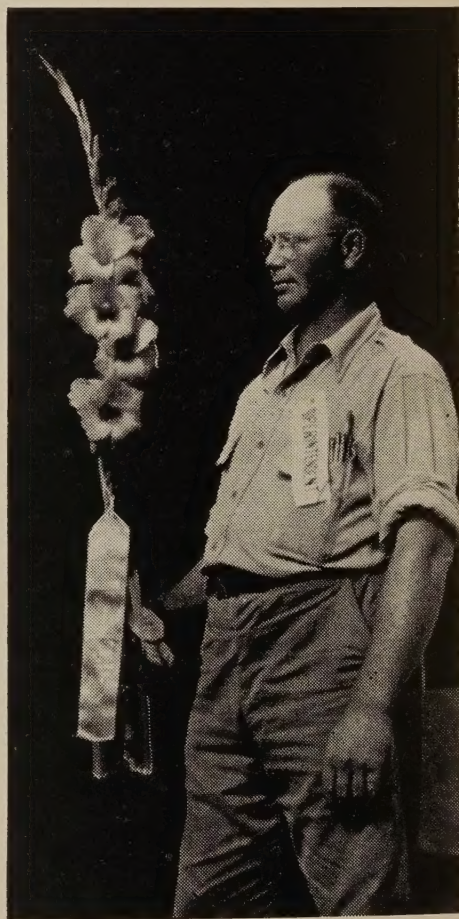

**Large:** \$1.50 10—\$12.00 100—\$90.00

**Medium:** \$1.00 10—\$8.00 100—\$65.00

**Small:** \$.75 10—\$6.00 100—\$45.00

**Bulblets:** 10—\$1.50 100—\$10.00

**½ Pint—\$60.00 Pint \$115.00**

I really think a lot of Daisy Mae and this one sported a blue ribbon.

## GENERAL BULB LIST

**Do Not Break the Amount in Each Item—Order Just As Listed.**

The numbers preceding the variety are the color classification according to the N.A.G.C. The letters following the originator's name is the season as E. early, M. midseason, L. late.

My aim is to send out only good clean healthy bulbs, true to name, and will cheerfully refund purchase price if order is found unsatisfactory upon arrival. No guarantee as to growth is implied in the sale. Nor will I in any way be responsible for the crop.

All orders accepted subject to prior sale.

No bulblet orders after April 1st, 1947. No bulb orders after May 1st, 1947.

Railway Express is the best method of shipping and will ship most orders this way so please give express address if different from Post Office.

No discount on collections or wholesale. Only on single and 10 rate prices.

**BULB SIZE:** LARGE size bulbs are one and one-quarter inches in diameter or more. This size makes the largest spikes and flowers. Size No. 1 and No. 2.

MEDIUM size bulbs are from  $\frac{3}{4}$  of an inch to an inch and one-quarter. All bloom splendidly, though the large bulbs make still larger spikes and more of them. Sizes No. 3 and No. 4.

SMALL size bulbs are not guaranteed to bloom, but under favorable conditions will bloom and produce a fine large bulb for the following year. Sizes No. 5 and No. 6.

- 462—BURMA (Palmer) M. A deep rose with many open, long flowerhead, always a winner. For those who like them ruffled this is a dandy.....L. \$.50 M. \$.35 S. \$.25 Blbts. 8—\$.25
- 542—CALYPSO. A very beautiful pink but crooks bad, but this fault can be used in basket arrangement to good advantage.....L. \$.50
- 480—CHIEF MULTNOMAH (Ellis) M. An outstanding smoky that is admired by most visitors.....L. 2—\$.25 M. 3—\$.25
- 366—COLONIAL MAID (Zimmer) M. This lavender is always a winner in its color class many times division champion and often a grand champion. Colonial Maid is used, by many growers, as a standard for a perfect cut-flower variety.....L. 2—\$.25 M. 4—\$.25 S. 8—\$.25 Blbts. Pkg. \$.25
- 441—CONNECTICUT YANKEE (Schenetsky) M. Blush pink with an attractive red blotch. Opens 8 or more, is outstanding on the show table. I won 2nd day champion 3 spikes at Sioux City.....L. \$4.00 M. \$3.00 S. \$2.00 Blbts. 1—\$.50
- 570—CONVOY (Palmer) M. A giant size purple that looks very good. This is a weak class and you can most always get a blue ribbon with this one.....L. \$.25 M. \$.20 S. 2—\$.25 Blbt. 25—\$.25
- 440—CORONA (Palmer) M. When the colors are strong this variety is sure a beauty. Creamy White with a distinct rose picotee edge. Opens 7-8 wide open florets. A honey for the florist and is hard to beat on the show table.....L. 2—\$.25 M. 4—\$.25 S. 8—\$.25 Blbts. Pkg. \$.25
- 442—COVER GIRL (La Salle) M. An extra tall growing pink with as many as 10 to 12 open on a 30-inch flowerhead.....L. \$1.00 M. \$.50 S. \$.35 Blbts. 3—\$.30
- 452—CRIMSON TIDE (Roberts) M. Deep red heavily ruffled with a white throat.....L. \$2.00 M. \$1.50 S. \$1.00
- 410—CRINKLE CREAM (Ellis) L. A honey of a light yellow a little ruffled to add to its beauty. Opens 6 to 8.....L. \$.50 M. \$.35 S. \$.25 Blbts. 8—\$.25
- 440—CRITERION (Krueger) L. A very good pink. I like this one especially for cutting also a good show glad.....L. \$.20 M. 2—\$.30 S. 3—\$.30
- 441—DAISY MAE (Lins-Ruble) L. See Page 4.
- 452—DIEPPE (Hassel) M. Ruffled deep salmon with a darker blotch.....L. \$1.50 M. \$1.00 S. \$.60 Blbts. 2—\$.25

- 190—DRACOSEPHELIUS (Original African Species). If you have not seen a green variety, here it is. A glad that is quite a contrast compared to Big Top or any of the newer varieties.....L. \$.20

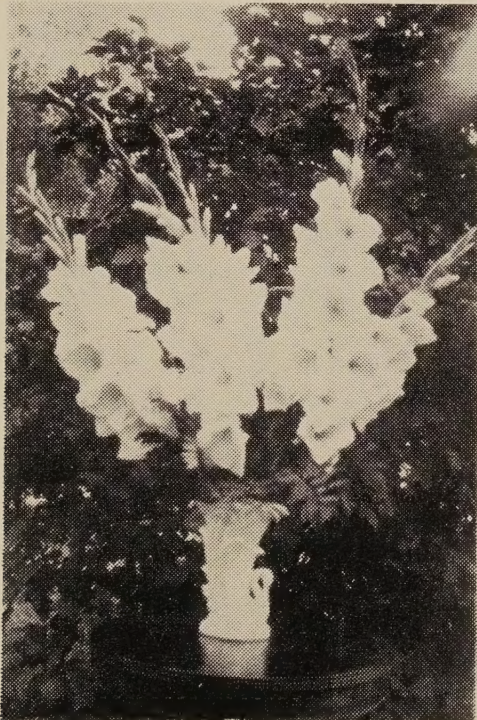

- 423—DRUM MAJOR (Wilson) L. An orange with a blotch,  
very good.....L. \$1.00 M. \$.75 S. \$.50 Blbts. 5—\$.25
- 410—EARLY GOLD (Butt) E. An early yellow.....L. \$.50 M. \$.35
- 362—EARLY ROSE (Jack) E. One of the first glads to bloom for me.....L. 2—\$.25
- 376—EDVARD GRIEG (Prestgard) M. A very good light blue.....L. \$.20

At last I am making a report on my glads. DAISY MAE don't know where you borrowed this name, for any other name would do just as well. As for the growing habits of Daisy Mae, there is nothing that can beat it—not too rank but just a sound healthy growing glad. Color is pleasing and right there at the top of the list for all extra choice glads, I see no reason why this should not be one of the leading commercial glads. Has all the qualities that Picardy ever had and I like it better though not a light pink like Picardy. I call it a coral salmon pink. Stoplight was better than ever this year.

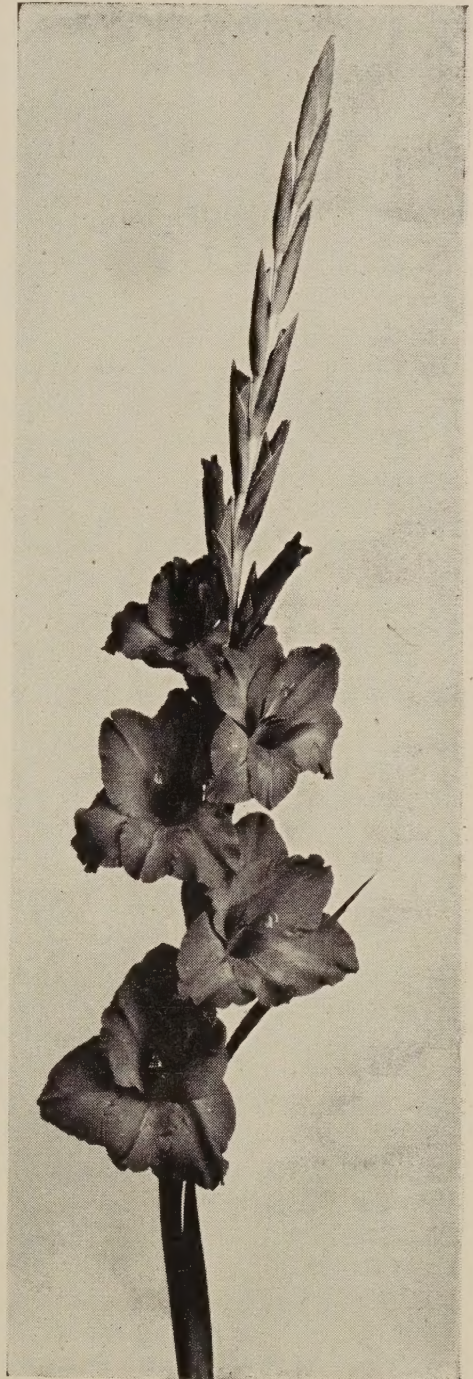

—L. M., Pennsylvania.

My order came through today and thanks a million. Thanks especially for the over-count.

—S. S. M., California.

5 gorgeous Leading Lady's—grown by my good friend, Leslie Ash of Alden, Minn.

**STOPLIGHT**

### TESTIMONIALS

Daisy Mae has just come in bloom the past week. We like it very much. —G. B., New York.

I was extremely well pleased with Daisy Mae. In fact in almost any other class I would rate it absolutely top. So far I haven't found a single fault but on just one year's look-see I can't quite say it is superior to M. Pearl or Genghis Khan. I saved bulblets carefully and plan to include them in my "special attention" bulblet for next year. The color and size is really there. —J. F. C., Tennessee.

Would like to say a word of praise for your catalog. The listing with show class means so much. —Mrs. J. L. H., Washington.

I received my order of bulbs in good condition. Thanks for the overcounts and extras. —G. K., Ohio.

The one "Glad" that drew the most attention, out of the 86 new ones I grew this year, was "Daisy Mae." Every visitor had a good word for it. Have just finished digging it and that baby certainly does produce the "Blbts." —C. H. D., Virginia.

To report on Daisy Mae, apparently a very nice grower like the color quite well and believe it should make a good cut flower. Its only fault that I can see up to now is the fact that it is terribly late, if that can be considered as a fault. I just don't recall off-hand what size the bulbs were that we planted, but think that they were quite small.—A. L. M., New York.

Robinson Crusoe

- 422—TROCADERO (Lins). This tall stately light salmon or light carrot orange is a very outstanding coming commercial. One of Lins' best. Am sure you will like it. Looks to me like this will become very popular. L. \$1.50 M. \$1.00 S. \$.50 Blbts. 10—\$1.50
- 390—VAGABOND PRINCE (Palmer). A chocolate brown with a red throat blotch. L. 2—\$.25 M. 3—\$.25 S. 8—\$.25 Blbts. Pkg. \$.25
- 312—VAN GOLD (Van Voorhis) E. Dark golden yellow. L. \$.50 M. \$.35 S. \$.25 Blbts. 6—\$.25
- 340—VARIATION (Krueger) E. Early light pink, opens 6 to 10 florets on a very long flowerhead. A dandy cutter. L. 2—\$.30 M. 3—\$.30 S. 6—\$.25 Blbts. 20—\$.25
- 540—VERONICA PFEIFFER (Mair) M. Very pretty pink of huge size. I thought this very good for those wanting extra large ones. L. \$1.00 M. \$.75 S. \$.40 Blbts. 3—\$.25
- 470—VULCAN (Stevens) M. A good medium purple. L. \$.30 M. \$.25 S. 2—\$.25 Blbts. 10—\$.25
- 406—WANDA (Snyder). Cream sport of Picardy, very good cutter. L. 2—\$.25 M. 3—\$.25 S. 6—\$.25 Blbts. Pkg. \$.25
- 506—WHITE GOLD (Scheer) E. The giant cream that is now grown by most everyone. Makes a good cutter. L. \$.20 M. 2—\$.25 S. 4—\$.25 Blbts. 20—\$.25
- 443—WINGS OF SONG (Ellis) M. A beautiful pink with a lighter throat, edges sometimes flecked smoky. Many times show champion. L. 2—\$.25 M. 3—\$.25 S. 6—\$.25 Blbts. Pkg. \$.25
- 312—YANGTZE (Harris). A very good yellow. L. 2—\$.25 M. 3—\$.25 S. 5—\$.25
- 440—YANKEE LASS (Schenetsky). Delicate light pink. 8 to 10 open. Looks extra fine. L. \$7.50 M. \$5.00 S. \$3.00 Blbts. \$1.00 each

#### HERE ARE MY FAVORITES:

Daisy Mae	Crinkle Cream	Trocadero	Strutter
Leading Lady	Miss Wisconsin	Yankee Lass	Spic and Span
Rio Rita	Elizabeth the Queen	Gleam	Dragon's Blood
Robinson Crusoe	Purple Supreme	Gratitude	Connecticut Yankee
Stoplight	Wings of Song	Miss Vermont	

The high price bulbs in this list does not necessarily mean they are the best but that they are new ones and that as stock increases the price will be lower. If you are a beginner I would suggest trying the following: They are not the highest priced ones but I can assure you that you will get some very good spikes and a wonderful range of color.

Snow Princess	Ethel Cave Cole	Gold Dust	Purple Supreme
Stoplight	Lady Jane	Algonquin	King Lear
Colonial Maid	Margaret Beaton	Wings of Song	King William

The best way to purchase the above is from wholesale list on page 16. Anyone wanting good glads for the cutflower trade will find the above list all of excellent qualities.

### CORONA

The Daisy Mae bulbs received O.K., and the other bulbs in my order. Thanks for good sizing, count and extras. —W.R., Idaho.

Your bulbs arrived in good shape—nice bulbs—and the count! It's the best count received this year and I think Daisy Mae will really go places. Thanks a lot.—E. P., Minn.

I wish to report that Daisy Mae was very beautiful and I know it's on my "must have" list and as soon as its price comes within my reach. Mrs. D. D., Minnesota.

## New Hybrid Tomato Plants

In the home garden the NEW HYBRID TOMATO PLANTS rank in importance with Hybrid Seed Corn in general farming in the Corn Belt.

They are early fruiting, medium sized and heavily productive. The fruit is firm; is not seedy; delicious, served fresh and an excellent canner. Plants are of dark green foliage and wonderfully disease-resistant. Half a dozen HYBRID PLANTS will take the place of two dozen ordinary tomato plants.

Price—individually potted plants, 25c each; half dozen \$1.25; dozen \$2.00; prepaid. No less than half dozen sold.

## D.D.T.

We used D.D.T. to great advantage this past growing season and would recommend this method of thrip control for every one. A 3% or a 5% D.D.T. dust should be used. Can be used in a dust gun that will make a good dust fog. You can dust at any time of day and be sure to start your dusting when plants are 6 to 8 inches high. Dust every week to ten days until the blooms begin to appear.

D.D.T. can also be used as a storage dust. After you have cleaned your bulbs put each variety in a paper sack and shake the dust into the bulbs. The dust goes a long ways about one ounce to one bushel of bulbs. The dust is to be left on the bulbs all winter.

Keep your clean dusted bulbs in a cool place with a temperature of about 40 degrees.

## BULBLETS

When getting a start in the new varieties one may buy bulblets because this is the most economical way to get a few of the many new ones that are now on the market. The best way to get good germination and extra good growth as to plant and bulb is to peel them. This is done by pressing the bulblets between two fingers until it cracks then peel off the hard husk. After you have taken this protective husk off care should be taken not to injure the tiny bulb. Keep them cool and in a storage that has plenty of humidity.

"Daisy Mae" is an excellent Glad from a standpoint of color and keeping qualities. I am quite sure that with the development of the bulbs I got, I will have much larger spikes than the ones I had this year.  
—S. M. W., Connecticut.

I personally like both Daisy Mae and Robinson Crusoe. I do not show.—K. F., Iowa.

I had three fine plump bulbs—planted them and had three exhibition spikes—one in Tri-State Show was beaten by a huge Yankee Lass. I do hope it will be luckier next year for it really is a huge flower with plenty size and color.  
—T. R. M., West Virginia.

Daisy Mae, White Gold, Stoplight and Elizabeth the Queen which we received from you last spring are four of the outstanding glads in our field. Daisy Mae, our most favorite, missed out on this year's glad show, but we hope to have it there next year.—W. D., Oregon.
